What's It Worth?

Age: All ages

No. of Players: small or large group

Equipment: Each guest brings two gifts (one valuable and one useless) wrapped neatly; two standard decks of cards

Time: 10+ minutes

Aim: To have fun distributing gifts at a Christmas party.

What's It Worth? is an entertaining and fun gift giving game for your next Christmas party. You will need to organise this game with your guests a week, or more, before the party.

1. Each person should bring two gifts. One gift should be to an agreed value (for example, \$10) while the other should be worthless (like an old shoe or a used train ticket). The valuable gift should be suitable for males or females of any age, if possible. Both gifts should be wrapped neatly and in a way that disguises them, so no one can tell the difference between a valuable gift and a useless gift.
2. All gifts are placed together in one pile.
3. Each person chooses two playing cards from a deck of cards. (If there are more than 26 people, each person receives only one card but there are two rounds in the game.)
4. The master of ceremonies (MC) shuffles the second deck of cards and picks a card. If someone has the matching card they can choose and immediately open one gift from the pile, but not the one they brought. The MC continues to pick cards one at a time until every player has chosen two gifts.

Note: There is always the chance that a player will choose two worthless prizes or two valuable gifts. After the game is finished, players may like to swap gifts to make it fair for all players.

2. If a player counts the wrong number, says a multiple of five, says "Happy Christmas!" at the wrong time or says "Merry Christmas!" by mistake, they are out of the game.
3. The last player left wins.

2. An adult begins to tell a story. Every time a child's name is mentioned, or their item is referred to, that child must stand up and turn around before sitting back down. As the Christmas stocking story unfolds, the story-teller should try to include every child's name and item at least once.
3. Whenever the word "stocking" is mentioned, all the children should stand up, turn around and sit down.

3. The next player does the same and passes the stocking on before writing down their guesses.
4. Continue until all players have felt the stocking and written down what they think the stocking contains.
5. Collect all the pieces of paper. Open up the Christmas stocking and reveal the items one at a time to the players.

Family Games Treasurehouse

Snowman (continued)

Number	Body Part	Number of Parts
1	Body	1
2	Head	1
3	Hat	1
4	Eyes	2
5	Carrot nose	1
6	Buttons	3
1, 2, 3, 4, 5, 6 in order	Scarf	1

3. Each player will need to throw a 'two' (head) before they can add the hat, eyes or nose. They will also need to throw a 'four' twice (once for each eye) and a 'six' three times (once for each button). Once you have drawn the rest of the diagram you will need to throw another 'one' before another 'two' and so forth up to 'six' to draw the scarf. It is not necessary to throw them in a row consecutively. For example, it would be okay to throw 1, 4, 4, 2, 1, 3, 5, 2, 4, 5, 2, 1, 6.

4. If a player has already drawn one part of the snowman and throw that number again, they forfeit their turn.

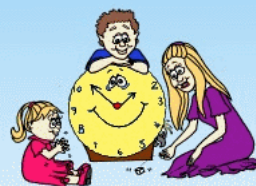

5. The first player to complete their drawing shouts 'Snowman!' and wins the game.

Note: There are printable copies of the drawing and the table in the appendix that can be cut out and distributed to each player or table.

Time: 10+ minutes

Aim: To be on the team that wins the most snow games in a warm-weather climate.

Blizzard Blast is lots of fun if you live in a warm-weather area where there is not much snow. The aim is to play a series of snow games. Players divide into two teams.

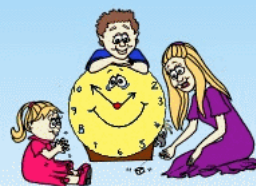

1. Teams line up on opposite sides of the room. A line is drawn down the centre of the room, using chalk or a length of rope. At a given signal the teams have a snow ball fight, using wads of rolled up newspaper, with the aim of throwing the 'snowballs' into the other team's territory. The team with the most snowballs in their area after three minutes loses.
2. Each team is given a block of ice - a two litre (four pint) bottle of water frozen in a freezer. Players have five minutes to melt the ice by rubbing it with their hands. The team with the smallest block wins.
3. The third of our Blizzard Blast games requires nerves of steel and feet of stone. Ten marbles are hidden in a large pan of crushed ice. One player from each team must find and remove the marbles using only their toes. The team who does this quickest wins.
4. Two players from each team must work together. One player holds a sheet of paper while the other player uses a pair of scissors and tries to cut out a snowflake from the sheet of paper without touching the paper with their other hand. The best snowflake wins.
5. One player on each team is chosen to be the "snowman". The other players wrap the snowman in a roll of toilet paper. A judge chooses the best snowman.

Blizzard Blast (continued)

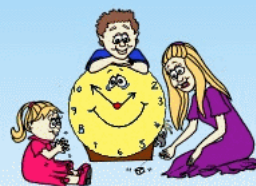

6. This is similar to the previous game except four players on each team stand back to back with their arms extended to form a "Christmas tree". (If you don't have enough players, you could use two players to form the tree.) The remaining players decorate the tree using a box of decorations. A judge determines the winning team.

7. Our final Blizzard Blast game can be played indoors or outdoors. Two sets of skis are needed for this game. You can make some skis by nailing old shoes to two long planks of wood or you could use real skis. Make sure any nails will not cause damage or an injury. Teams line up and must complete a slalom course from one end of the room to the other and back. The first team to complete the relay wins.

Hint: You may need to tell another player the Christmas Secret either before or during the game so that the other players can get more of a hint.
